

## BEN JOHNSON'S TRUE METAL.

There is a question in the minds of the people as to whether the bill introduced by senator Gorin to prevent the shipping of whisky into local option districts will stand the tests of the courts. This question has been a source of some worry to all those who favored the passage of such a bill. A great part of the doubt of this matter has been removed from our minds by reason of the fact that Senator Ben Johnson, of Nelson County, was a warm advocate of the bill and all through the times it was struggling for existence in both of the houses it had his valuable assistance and he was largely instrumental in its passage.

Knowing Senator Johnson's ability as a lawyer and realizing his frankness and fairness in all matters, we are inclined to believe that the bill will stand the severest of tests in the courts, or he would not have it go through the Legislature with any defects in it that would make it lose out in the courts. Since Senator Johnson had charge of the bill to a great extent there is assurance that it is constitutional and all right and will serve its good purpose. We do not mean to underrate Senator Gorin's ability at all, but Senator Johnson has a reputation as a constitutional lawyer. Senator Gorin gets enough glory for one man by being the author of such a measure. —LaRue County Herald.

### Whose Say-so is Best?

With nearly all medicines put up for sale through druggists, one has to take the maker's say-so alone as to its curative value. Of course, such testimony is not that of a disinterested party and accordingly is not to be given the same credit as if written from disinterested motives. Dr. Pierce's medicines, however, form a single and therefore striking exception to this rule. Their claims to the confidence of invalids does not rest solely upon their makers' say-so or praise. Their ingredients are matters of public knowledge, being printed on each separate bottle wrapper. Thus invalid sufferers are taken into Dr. Pierce's full confidence. Scores of leading medical men have written enough to fill volumes in praise of the curative value of the several ingredients entering into these well-known medicines.

Amongst these writers we find such medical lights as Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago; Prof. Hale, of the same city; Prof. John M. Scudder, M. D., late of Cincinnati, Ohio; Prof. John King, M. D., late of Cincinnati, Ohio; Dr. Grover Cox, of New York; Dr. Bartholow, of Jefferson Medical College, of Pa., and scores of others equally eminent. Dr. Pierce's Favorite Prescription cures the worst cases of female weakness, profluous menstruation and retroversion and corrects irregularities, cures painful periods, dries up disagreeable and weakening drains, sometimes known as pelvic catarrh and a multitude of other diseases peculiar to women. Bear in mind, it is not a patent nor even a secret medicine, but the "Favorite Prescription" of a regularly educated physician, of large experience in the cure of woman's peculiar ailments, who frankly and confidently takes his patients into his full confidence by telling them just what his "Prescription" is composed of. Of no other medicine put up for woman's special maladies and sold through druggists, can it be said that the maker is not afraid to deal thus frankly, openly and honorably, by letting every patient using the same know exactly what she is taking.

Sick women are invited to consult Dr. Pierce, by letter, free. All correspondence is guarded as sacredly secret and womanly confidences are protected by professional privacy. Address Dr. R. V. Pierce, Buffalo, N. Y. How to preserve health and beauty is told in Dr. Pierce's Common Sense Medical Adviser. It is free. For a paper-covered copy send Dr. R. V. Pierce, Buffalo, N. Y., 21 one-cent stamps to cover mailing only; in cloth binding 31 stamps. Dr. Pierce's Pellets cure constipation.

### Sacrifices of Newspapers.

The general public often loses sight of the services and sacrifices of newspapers in behalf of principle. It is taken as a matter of course in every political campaign that a newspaper should espouse one side or the other, but little thought is given by the average reader to what sacrifices are made, what toil, what thought, what devotion, what unflinching zeal are contributed by the numerous and diversified personnel which constitutes the vast organization of a metropolitan journal. In no other profession do we witness the same unceasing, unselfish fidelity to a cause, the same unflinching and unwavering integrity of purpose, the same disregard of pecuniary loss, the same self-sacrificing, ardent, unflinching enthusiasm to principle, or the same courageous consecration to civic duty. —Auxiliary.

S. Egleston of Maple Landing, Iowa. "Knees and joints aching, muscles sore, head stooped up, eyes and nose running, with alternate spells of chills and fever. We began using Chamberlain's Cough Remedy, aiding the same with a double dose of Chamberlain's Stomach and Liver Tablets, and by its liberal use soon completely knocked out the grip." ### Public Opinion.

"Papa, what is an enlightened public opinion?" "It is an acquaintance, my son, with the amount stolen." —Lile.

### High Pressure Days.

Men and women alike have to work incessantly with brain and hand to hold their own nowadays. Never were the demands of business, the wants of the family, the requirements of society, more numerous. The first effect of the praise worthy effort to keep up with all these things is commonly seen in a weakened or debilitated condition of the nervous system, which results in dyspepsia, defective nutrition of both body and brain, and in extreme cases in complete nervous prostration. It is clearly seen that what is needed is what will sustain the system give vigor and tone of the nerves, and keep the digestive and assimilative functions healthy and active. From personal knowledge, we can recommend Hood's Sarsaparilla for this purpose. Its acts on all the vital organs, builds up the whole system, and fits men and women for these high-pressure days.

### Money Value of St. Louis.

When Louis IX., the saint, surrendered with his whole forces to the Saracens at Mansura on the 5th of April, 1250, 1,000,000 golden bezants—equal to half that number of the lives of the day—were demanded for his freedom. But the Moslems came down to 800,000 bezants, and in the end by surrendering Damietta Louis got off for 100,000 marks—equal, roughly, to over 1,000,000 of today. These golden bezants contained about 30 shillings' worth of our gold, but to go to market with would buy then as much probably as 7½ sovereigns now would. Were the scorpion allowed to break forth here he would probably tell how this high priced and saintly carcass was treated by his people when Louis died at the siege of Tunis, twenty years later. Being hard up for embalmers, they had, according to the Journal of Aubrey, to quarter and boil him down in separate caldrons and so sent but his whitened skeleton to France.—London Chronicle.

### The People of Great Britain.

Ethnologically Great Britain is a mixture of many races, resulting from a succession of invasions. When the Romans invaded Britain the inhabitants were Celtic, mixed with an earlier Euskarian non-Aryan element. They continued to be mainly so until the fifth and sixth centuries, when the level parts of the country were overrun by German tribes. Then followed invasions by the Danes and other Scandinavian tribes and lastly the Norman conquest. The inhabitants of England and the lowlands of Scotland, therefore, sprang from an amalgamation of the original Celtic with German and Scandinavian blood. Wales and the highlands of Scotland are still inhabited by descendants of the ancient Celtic tribes. The people of Ireland also are of Celtic origin, although there is an admixture of many other races.
